

# Secure Web Transfer

Cyber Solutions offers our Secure Web Transfer Service, or "SWT". It can allow you to distribute files quickly, easily, and securely with your vendors, customers, and employees. Its easy to use web interface allows you and your users to access the secure system from any computer with internet access. Users can easily download from you, or upload / submit files to you. This solution is ideal for businesses with sensitive or large files that need to be transferred securely and easily through the internet. SWT can also be tied into your website and "branded" with your logo, so you can maintain your company image. Bypass unreliable / unsecure e-mail systems, and cumbersome FTP sites and try SWT today!

- Easily and securely transfer files using the internet
- Linkable to your existing website
- Can be branded with your logo
- 128 bit encryption ensures your files remain secure
- E-mail notifications available
- Up to 2GB per file
- Access from any computer with internet access
- Easily manage the documents you send and receive
- Allow files to expire
- Try SWT today!!
